PROFESSIONAL SUMMARY

Customer-focused operations professional transitioning to IT support, with 10+ years of experience troubleshooting time-sensitive user, device, application, access, and workflow issues. Currently building skills in cybersecurity, hardware, networking, Python, SQL, and Git/GitHub through Coursera training.

TECHNICAL SKILLS

IT Support: Troubleshooting
Technical: Hardware | Networking | Cybersecurity | Basic Python, SQL, and Git/GitHub
Tools: Microsoft Office | Google Workspace | Amazon Flex | Cortex | Chime | Route optimization | Lightroom CC

COURSERA CYBERSECURITY TRAINING

Cybersecurity Professional Certificate — **Coursera**

- **Network Security** - Learned core networking and security concepts, common risks, access controls, and secure configurations that protect devices, systems, and data.
- **Threat Analysis** - Learned to recognize common threats, vulnerabilities, and suspicious activity, then document or escalate identified risks.
- **SOC Fundamentals** - Learned how security teams monitor, triage, document, prioritize, communicate, and escalate technical events.
- **Incident Response** - Studied incident identification, containment, recovery, documentation, lessons learned, user communication, and timely escalation.

PROFESSIONAL EXPERIENCE

Manager | Amazon DSP | June 2023 – February 2026

- Escalation lead for 30–60+ associates, troubleshooting devices, apps, access, and operations.
- Resolved issues, clarified next steps, and escalated complex problems to reduce downtime.
- Trained 5 monthly and 8–10 peak hires on tools, workflows, documentation, and expectations.
- Analyzed delivery and non-receipt trends to identify recurring issues and drive corrective action.
- Managed 30–65 routes and 7,000–18,000 packages daily with 99.5% success and accurate documentation.

Delivery Associate | Amazon DSP | June 2022 – June 2023

- Used handheld devices and route-optimization software to complete 150–200+ deliveries per shift while maintaining accurate status updates and documentation.
- Troubleshot routing, application, device, and access problems independently and sought escalation support when necessary.
- Documented delivery exceptions and customer interactions accurately to support service quality, compliance, and downstream reporting.

Freelance Photographer | Self-Employed | May 2016 – June 2022

- Managed equipment, workflows, scheduling, and client communication for 200+ photo sessions.
- Resolved on-site equipment and workflow issues while meeting deadlines and supporting clients.
- Edited and delivered assets in Lightroom CC and organized files for 50+ clients.

EDUCATION

Ware Shoals High School

- **High School Diploma**
